Philosophy of Success

From 5 Tracks to 5 Peaks

International Science & Technology Consortium, Switzerland headed by *ISTU, Poland* promotes the **5th Generation of Universities** and the **Philosophy of 5 Peaks**. We created 5 directions for competitive professional development in the age of CyberTech and Artificial Intelligence:

1. Management Sciences

2. Health Sciences

3. Tech Sciences

4. Cyber Sciences

5. Game Studies

In response to the unprecedented pace of digital transformation, the Consortium translates these five pillars into a cohesive, future-proof ecosystem. Our mission is to bridge the gap between traditional academic theory and the disruptive demands of the global tech economy.

Management Sciences

Fully remote studying at the intersection of a classical MBA and advanced AI technologies prepares new-era leaders who can effectively manage hybrid teams in a distributed digital environment.

This global educational track is built entirely on solving real-world corporate cases through advanced online collaboration platforms, allowing students to gain deep practical experience from anywhere in the world.

Exclusive digital access to the closed business community opens doors to borderless global networking and a remote career start in leading European tech companies.

Students deeply master agile methodologies and remote crisis management, making them indispensable strategists ready for any challenges in a volatile, digital-first global economy.

Global Educational Track 1

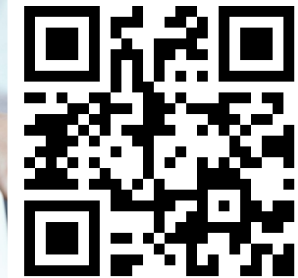

Management Sciences

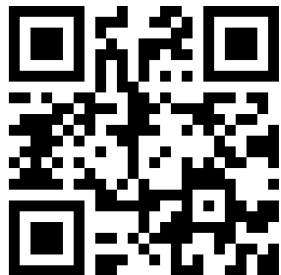

Academic Degrees

Bachelor	GHU, United Kingdom	Bachelor of Business Administration (BBA)
Master	GHU, United Kingdom	Master of Business Administration (MBA)
Doctor	GHU, United Kingdom	Doctor of Business Administration (DBA)

Professional Degrees

CPD	ISTU, Poland / OEAEP, Czech Republic (Joint Degree)	MBA (Professional Degree)
CPD	ISTU, Poland / OEAEP, Czech Republic (Joint Degree)	Executive MBA (Professional Degree)
CPD	ISTU, Poland / OEAEP, Czech Republic (Joint Degree)	DBA (Professional Degree)

AESTHETIC ACADEMY

Health Sciences

This global online educational track prepares specialists at the intersection of medicine and high technology, focusing on telemedicine, digital diagnostics, and the practical integration of AI into therapeutic processes.

Remote training takes place in close digital collaboration with leading European biomedical laboratories, providing students with cloud-based access to advanced clinical data and scientific research.

Special emphasis is placed on preventive medicine, biohacking, and longevity management, which currently represents the fastest-growing and most investment-attractive sector in the digital health industry.

Graduates acquire unique interdisciplinary competencies essential for creating, testing, and globally scaling their own innovative MedTech startups entirely in a virtual environment.

Global Educational Track 2

Health Sciences

Academic Degrees

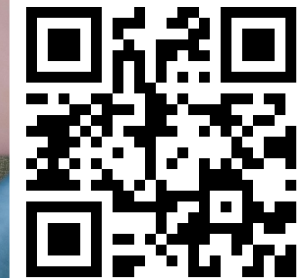

Bachelor	Cosmetology	LAA, Canada	Medical Aesthetic Diploma
Bachelor	Psychology	REUSS, Sweden	Bachelor of Psychology
Bachelor	Health Management	REUSS, Sweden	Bachelor of Health Management
Master	Clinical Psychology	REUSS, Sweden	Master of Clinical Psychology

Professional Degrees

Advanced	Cosmetology	ISTU, Poland	Advanced Professional Diploma in Applied Cosmetology
Advanced	Health Management	MLA, Canada	Advanced Diploma in Clinical Laboratory Leadership and Management
CPD	Clinical Psychology	OEAEP, Czech Republic	Professional Master Degree of Psychological Counseling / Practitioner Psychologist

Global Educational Track 3

Tech Sciences

Fully accredited by

Tech Sciences

Through fully online learning environments, students dive deep into the world of robotics, smart materials, and green energy, engineering solutions via digital twins that actively shape the new industrial landscape.

The educational process within this international track is based on remote practical work connected to high-tech engineering hubs in Poland and Switzerland, guided by world-renowned scientists via digital platforms.

The track purposefully develops systemic inventive thinking, empowering students to use cloud-based simulation tools to build completely new technological standards from the ground up.

Close digital integration with the real manufacturing sector guarantees that students' remote graduation projects find immediate commercial application in world-class enterprises.

Global Educational Track 3

Tech Sciences

Academic Degrees

Bachelor	Computer Sciences	REUSS, Sweden	Bachelor of Computer Sciences
Master	Computer Sciences	REUSS, Sweden	Master of Computer Sciences
Doctor	Computer Sciences	REUSS, Sweden	Doctor of Computer Sciences (PhD)
Doctor	Computer Sciences	HIU, USA	Doctor of Computer Sciences (PhD)

Professional Degree

Advanced	Artificial Intelligence	ISTU, Poland / AIVU, United Kingdom	Doctoral-Level Professional Diploma in Cyber and Artificial Psychology

Consortium

Cyber Sciences

This advanced, 100% online educational track focuses on the cutting-edge fields of Cyberpsychology and the Psychology of Artificial Intelligence, exploring the profound impact of digital environments on human behavior.

Through fully remote digital platforms, students analyze how humans interact with intelligent systems, mastering the cognitive and emotional principles behind human-AI collaboration and virtual communication.

The online curriculum emphasizes the ethical, behavioral, and psychological aspects of AI integration, preparing students to design human-centric digital experiences and understand user behavioral patterns in cyberspace.

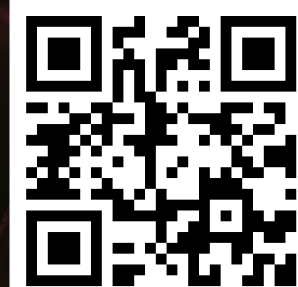

Graduating from this pioneering track equips professionals with rare and highly sought-after expertise, making them essential remote experts and consultants for tech giants shaping the future of human-machine interaction.

Global Educational Track 4

Cyber Sciences

Professional Degrees

Doctor	Cyber and Artificial Psychology	IRICAP at ISTU, Poland / AIVU, United Kingdom (Joint Degree)	Doctoral-Level Professional Diploma in Cyber and Artificial Psychology
Doctor	Foresight & Vision	ISTU, Poland / AIVU, United Kingdom (Joint Degree)	Doctoral-Level Professional Diploma in Foresight & Vision
Doctor	AI Ethics & Alignment	IRICAP at ISTU, Poland / AIVU, United Kingdom (Joint Degree)	Doctoral-Level Professional Diploma in AI Ethics & Alignment

Game Studies

The scope of this international online educational track goes far beyond classical game development, unlocking the colossal potential of gamification for modern e-learning, distributed business, and social projects.

Students thoroughly explore user engagement psychology, behavioral economics, and the creation of immersive worlds using advanced remote engines and virtual, augmented, and extended reality (VR/AR/XR) technologies.

Throughout the fully digital learning process, every student builds a professional portfolio of completed game projects and interactive simulators, ready to be pitched online to global publishers and investors.

This track harmoniously combines creative potential with a powerful technological foundation, opening a direct virtual path for graduates into the multi-billion-dollar global market of metaverses and interactive media.

Global Educational Track 5

Game Studies
